

My dear Sir

Whila Aug 26-1777

My report goes off soon I have only time to acknowledge
your favour of 14th 2nd to the last contents of which are
communicated to Longs. Commercial Committee have not given orders
relative to other Longs in consequence of their wanting Information
from certain Navy Board of their Readings to act in that Depart-
ment; but Mr Morris informs me that he shall order of Goods
to be delivered by Commission Agents by his own means & that a
Disposition of other articles will soon be made & conveyed
to your Board. Should this be rejected from a Approach of
War to the City or a Engagement of Commercial Council.
I think it will be best only to keep hereof to deliver out
Agents as per of Goods, to & D^y M^y is sent (look
after me of of Continental Goods such articles as they
may need - Mr Morris desires me to inform You that
your hopes should be remembered & services acknowledged
by a earliest opportunity.

I think You have conducted prudently in sending
Quarter for Goods while at Casco Bay; I not able to
determine whether You determine to order them by Land or
Water from six to month I have not said any thing to
Comm^{rs} Committee on that Head, but shall mention it
this morning I doubt not they will be fully satisfied.

Respectfully

P.S. I think it will be best to order good
from both sides by and as Distance is
not great to least good
